### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Paglirani on 2/05/2004 for purpose of eliminating the functional language/limitations of the claims and thereby having the claimed invention in a condition of allowance. In a telephone conversation on 2/06/2004, Mr. P. Alden agreed with the examiner to eliminate an extra phrase 'Fig. 5' at the bottom of the abstract. The amendment is as follows:

In Claim 1, page 9:

Line 9, remove the limitation 'for accommodating the active optical component';

Lines 14 and 15, remove the limitation 'being adapted';

Lines 17-18, remove the limitation 'when the waveguide chip and second chip are connected together with the active optical component located within the cavity';

Line 12, remove ',' and insert the limitation 'and for insertion into said cavity'.

In Claim 7, page 10:

Lines 13 and 14 remove the limitation 'being adapted'.

In abstract, page 11:

Line 18, remove the phrase 'Fig. 5'.

***Reason for Allowance***

2. Claims are allowed for the following reasons:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. 6,477,286. The improvement comprises as follows:

Claims are allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious a second chip for carrying the active optical component and for insertion into said cavity, wherein the waveguide chip comprises a locating stop and the second chip has first and second reference regions formed thereon, the first reference region to locate the active optical component, and the second reference region to engage the surface of the cladding layer and the locating stop of the waveguide chip in order to provide alignment of the waveguide with the active optical component chip in combination with the rest of the limitations of the base claim

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Citation of Relevant Prior Art***
